

**"I AM GROOT", says the repaired robot. You are in tears to hear a familiar voice once again. You ask him to help you to get back home.**

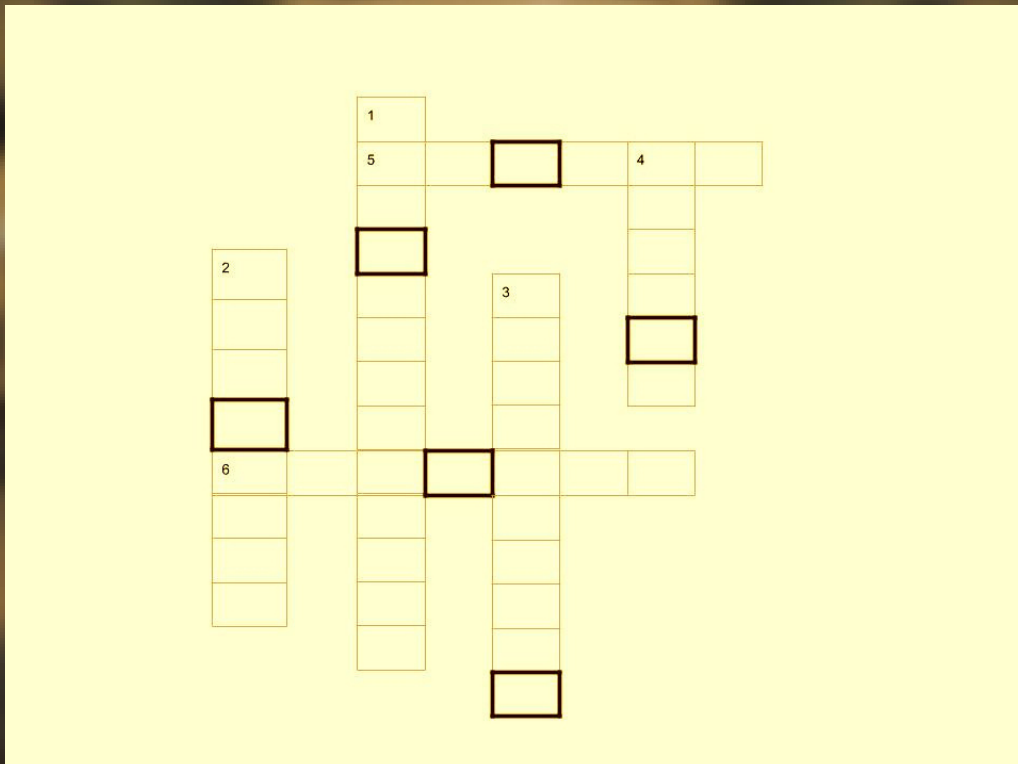

**G.R.O.O.T. scans the ship and derives a plan but the poor robot is glitching repeatedly. He manages to explain to you that you must go and look for a Dr. Thomas who was last seen in the cafeteria. There is a chip in his back pocket that needs to be entered into the system to activate the Survival Protocol. But there's a problem. You being new to the job, are unfamiliar with the ship in its entirety meanwhile G.R.O.O.T. is still glitching badly and is not able to guide you to the various sections of the ship. You have found a piece of paper which is filled with clues for these sections. You have to solve these clues for your survival in this race against time.**

## DOWN

1. Means of sending or receiving information, such as satellites or computers.
2. The state of being free from danger or threat.
3. Concerned with design and application of equipment, devices and systems.
4. A machine with moving parts that converts power into motion.

## ACROSS

5. The life-supporting component of the air.
6. A device for the controlled release of nuclear energy.

**\*The letters in the black boxes in the same order will form the answer.**
